

Per new Colorado state law, all healthcare facilities are required to post their usual and customary fees for their 15 most frequently billed procedures on their website. This is the fee that would be paid by a patient if they do not have insurance. They are listed below.

It is almost certain that these are NOT the fees that you will pay when you come into the office to have treatment done. We would like to stress that these are the fees that are to be paid by patients who do NOT have any kind of dental insurance, and are not members of our in house discount plan.

We cannot stress enough how few, if any, of our patients actually pay these fees, but we are complying with the State of Colorado by posting them here. Please call us if you have any further questions about this seemingly ridiculous regulation or the fees you see below.
